---

Stebbing's are the number one [used car supermarket Kings Lynn](#) . It is definitely worth visiting this used car dealer, whether you were considering a new or used car. Car supermarkets stock over 400 cars on their forecourt and enable the confused car buyer to browse and test drive all different makes and models under one roof, in one location. This is something franchised car dealers are unable to offer as they sell usually one manufacturer brand. Car Supermarkets can offer the same dealer facilities, car finance and used car warranty and provide the buyer with an unrivalled choice of used and nearly new cars.
